“We have seven companies and Intercompany Postings helps us to manage the transactions between companies.”

TONY KEUNG, WATERFRONT EMPLOYERS OF BRITISH COLUMBIA
NOLAN CUSTOMER SINCE 2001

NEW VERSION!

MAJOR NEW FEATURES AVAILABLE WITH INTERCOMPANY POSTING VERSION 5.0

POP to SOP: Raise invoices easily between companies.

Microsoft Dynamics™ GP Bank Reconciliation Connector: Create Intercompany transactions and transfers from the Great Plains Bank Reconciliation module.

AR for multi-company: Apply one customer check to invoices in multiple companies from one main company screen.

ICP Data Verification Windows: Provides assurance that Intercompany accounts are balanced.

ALSO AVAILABLE: INTERCOMPANY POSTINGS WITH CONTROL +

Intercompany Postings with Control + adds additional control to a centralized accounts payable company.

Account segments default from the user ID and restricts users to entering information only to their company.

ICP Control + adds an additional layer of control while maintaining great flexibility.
